IT Asset Management

As a minority owned small business and R2 certified, **IT Recycling Solution** is the ideal destination for secure and reliable **Data Destruction** and **E-waste Recycling**. We are committed to providing an auditable process with custom solutions for our Federal | State and Local government clients. Our relentless pursuit of absolute data security and zero landfill policy through innovation is unparalleled.

By making **DoD 5200.22-M | NIST 800-88** a standard practice in our data security model, any unforeseen scenario like data breach becomes irrelevant and our **R2 and ISO 14001** framework delivers environmentally sound results. Our certified, dedicated team members are on standby to meticulously plan and deliver cost-effective results.

IT Recycling Solution is proud to be a part of the American, small business tradition and we look forward to working diligently to keep the tradition thriving.

CERTIFICATIONS

Small Business | Minority Owned

Certified Recycling Facility
